# YEAR-OVER-YEAR GENERAL FUNDS REVENUES INCREASE BY MORE THAN \$1 BILLION, INVESTMENT TOOL KEPT BILL BACKLOG IN CHECK

Estimated bill backlog drops to lowest level since early days of budget impasse

#### BACKLOG VOUCHER REPORT

Estimated General Funds Backlog based on Dept Transparency Act Report agency submissions. Amounts in millions of dollars

ESTIMATED GENERAL **FUNDS BACKLOG** 

IOC PAYABLES

Riding stronger income tax receipts and additional federal dollars, Illinois ended the first quarter of fiscal year 2020 with a \$1.211 billion year-over-year increase in General Funds revenues.

The quarter also saw the lowest estimated daily bill backlog (\$5.572 billion at the end of the day July 17) since around the time the 736-day budget impasse began in 2015. Further, the quarter closed with the estimated backlog under \$6 billion for several consecutive days. Prior to July, this had not happened since a four-day period in spring 2016.

Aiding in the drop in the backlog was a large infusion of funds from the Income Tax Refund Fund, which is used The quarter also saw the lowest estimated daily bill backlog (\$5.572 billion at the end of the day July 17) since around the time the 736-day budget impasse began in 2015.

to pay individual and corporate income tax refunds. Per state law, the balance in the fund every June 30, after refunds have been paid to taxpayers, transfers to the state's General Revenue Fund. On June 30, 2019, the balance of the Income Tax Refund Fund was \$617 million; in contrast, on June 30, 2018, the balance was \$327.1 million. The IIlinois Office of Comptroller worked with the Illinois Department of

Revenue to ensure the transfer of \$400 million to GRF in July and \$217 million in August.

Further assisting keeping the backlog in check was the renewal of the State Treasurer's Office's investment tool, authorized via 15 ILCS 520/22.5 (Public Act 100-1107). The STO invested \$400 million of the state's portfolio into the backlog in September, which the IOC used primarily to pay state employee health insurance bills.

The quarter ended with no Medicaid bills more than 90 days old pending at the IOC, which limited the amount of late payment interest penalties owed on unpaid principal.

While the drop in the bill backlog was a step

in the right direction, the state is entering into the lower-revenue generating months of fall, which will likely result in an upward swing in the estimated backlog in the second quarter. And still faced with a backlog greater than \$6 billion, the state still has much work to do to ensure fiscal stability.

As of September 30, \$645 million of the \$783 million in interfund borrowing that occurred in fiscal years 2018 and 2019 remains outstanding. Almost \$138 million has been repaid through September 30. The fiscal year 2020 budget implementation bill (Public Act 101-0010) extended the repayment of interfund borrowing amounts to 48 months from the date the funds were borrowed.

Faced with a backlog greater than \$6 billion, the state still has much work to do to ensure fiscal stability.

### SUSANA A. MENDOZA ILLINOIS STATE COMPTROLLER

# QUARTERLY HIGHLIGHTS AND DEBT TRANSPARENCY ACT REVIEW

Pursuant to the Debt Transparency Act, state agencies reported \$605 million in estimated liabilities during the September 2019 reporting period, the lowest agency-held liability amount reported since the IOC began tracking agency liabilities informally in 2013.

Combined with \$5.064 billion in payables at the IOC for the end of the day September 30, the state ended the quarter with a Debt Transparency Act-adiusted estimated bill backlog of \$5.669 billion. Compared to the fiscal year 2019 fourth quarter, IOC payables decreased by 2% (\$97 million from \$5.161 billion), and the DTA-adjusted backlog creased by 6% (\$350 million from \$6.019 billion). Compared to one year ago, IOC payables decreased by 10% (\$559 million from \$5.623 billion) and the DTA-adjusted backlog decreased by 19% (\$1.37 billion from \$7.039 billion).1

"Refusing to acknowledge the longterm revenue challenges facing this state could result in more forced austerity, like we suffered during the 736-day budget impasse between 2015 and 2017." - Comptroller Susana A. Mendoza

During the first quarter of the 2020 fiscal year, the high-water mark of IOC payables totaled \$6.418 billion on September 19, while the lowest amount of IOC payables for the quarter dropped to \$4.619 billion on July 12 - the lowest IOC payables amount since the first year of the two-year budget impasse. The average daily amount of IOC payables for the quarter was \$5.498 billion, while the average daily DTA-adjusted bill backlog was \$6.271 billion over 64 business days.

The IOC continued to utilize cash management tools authorized by the General Assembly to stem the state's backlog of unpaid bills. In September, the IOC borrowed \$400 million from other state funds. \$200 million of which must be repaid with interest to the state's investment portfolio in March 2020 and \$200 million in April 2020. Under the same investment tool in 2018, last April the IOC finalized repayment of \$700 million invested at interest rates ranging from

3.62% to 3.78%, far lower than the 12% interest penalty due on many of the state's bills when not paid promptly.

General Funds The cash balance ended the quarter with \$847 million, compared to \$502 million one year ago. When outstanding vouchers are considered, the General Revenue Fund - Illinois' main operating account - closed the quarter with a cash balance of negative \$3.911 lion, compared to negative \$4.612 billion one year ago.

<sup>&</sup>lt;sup>1</sup> The total estimated backlog must be adjusted based on held bills reported at the agency level, which are not reported to the Illinois Office of Comptroller until after the final day of each month.

# During the first quarter of fiscal year 2020, the lowest amount of IOC payables dropped to \$4.619 billion – the lowest IOC payables amount since the two year budget impasse.

## **BASE REVENUES**

Growth in income taxes, along with increased federal receipts and transfers-in through the first three months of fiscal year 2020 led to a General Funds total base revenue increase of \$1.211 billion, or 14.0%. Factors impacting the state's base revenues this year include:

#### INDIVIDUAL INCOME TAX:

Individual income tax receipts increased by \$238 million, or 5.9%, through the first quarter of the fiscal year.

#### **CORPORATE INCOME TAX:**

Corporate income tax receipts increased by \$37 million, or 7.0%, through the first quarter of the fiscal year.

#### **SALES TAX:**

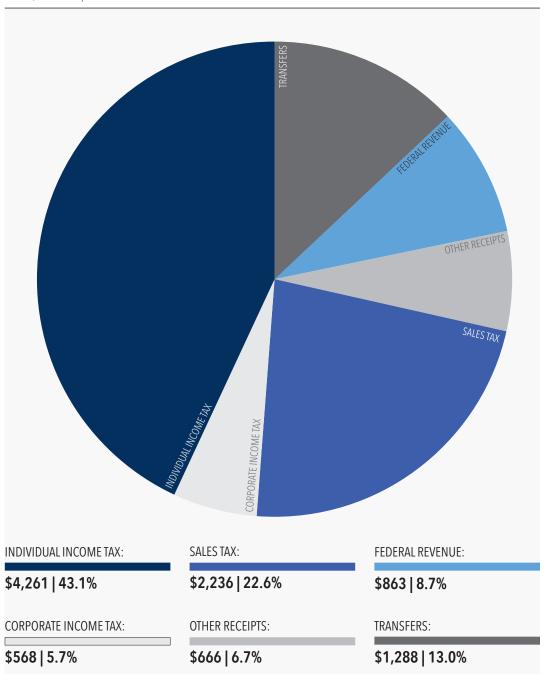

Sales tax revenues through September of the fiscal year increased by \$79 million, or 3.7%.

#### TRANSFERS:

Transfers-in increased by \$690 million through the first quarter of fiscal year 2020, largely due to the increase from the Income Tax Refund Fund. Lottery Fund transfers decreased by \$28 million, and riverboat gambling transfers increased by \$1 million.

#### GENERAL FUNDS BASE REVENUES

Fiscal Year 2020, Quarter 1 | July 1, 2019 to September 30, 2019 Total \$9,882 million | Amounts in millions of dollars

**CORRECTIONS:** 

\$510 | 5.2%

**HUMAN SERVICES:** 

\$1,002 | 10.1%

STATE BOARD OF EDUCATION:

\$1,519 | 15.3%

HEALTHCARE AND FAMILY SERVICES

\$1,018 | 10.3%

#### **SOCIAL SERVICES:**

Department of Children and Family Services expenditures increased by \$70 million, 35.9%. Vouchers presented by the Department on Aging increased by \$27 million, or 13.5%. Department Human Services spending decreased by \$45 million (4.3%) and vouchers presented by the Department of Healthcare and Family Services decreased by \$512 million (33.5%) for the first three months of the fiscal year.

#### **EDUCATION:**

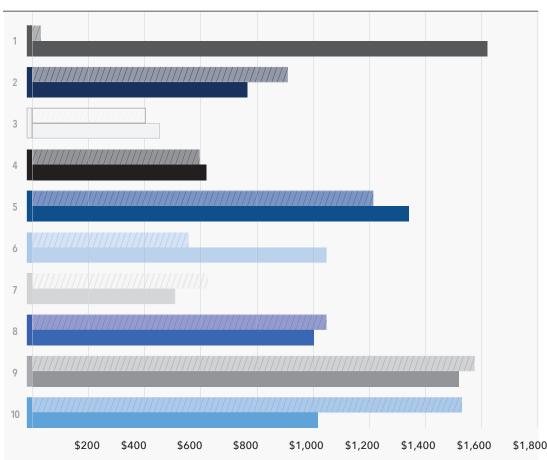

Expenditures by the State Board of Education declined by \$56 million (3.6%) so far for the fiscal year. This decrease is due to the timing of vouchers submitted for mandated categoricals, which are typically vouchered by the end of September each year but weren't recorded until October 1 (second quarter) this year. Vouchers presented by higher education agencies, excluding the retirement system, increased by \$28 million, or 4.7%.

BASE EXPENDITURE 8

General Funds base spending – payments released by the IOC – increased by \$1.407 billion, or 16.6%, through September 2019. Warrants issued, including prior year adjustments, increased \$1.553 billion while transfers out decreased by \$146 million.
